

ULTI EZinstall3

A new Technology Platform for
Smart Home Control System

Easy installation

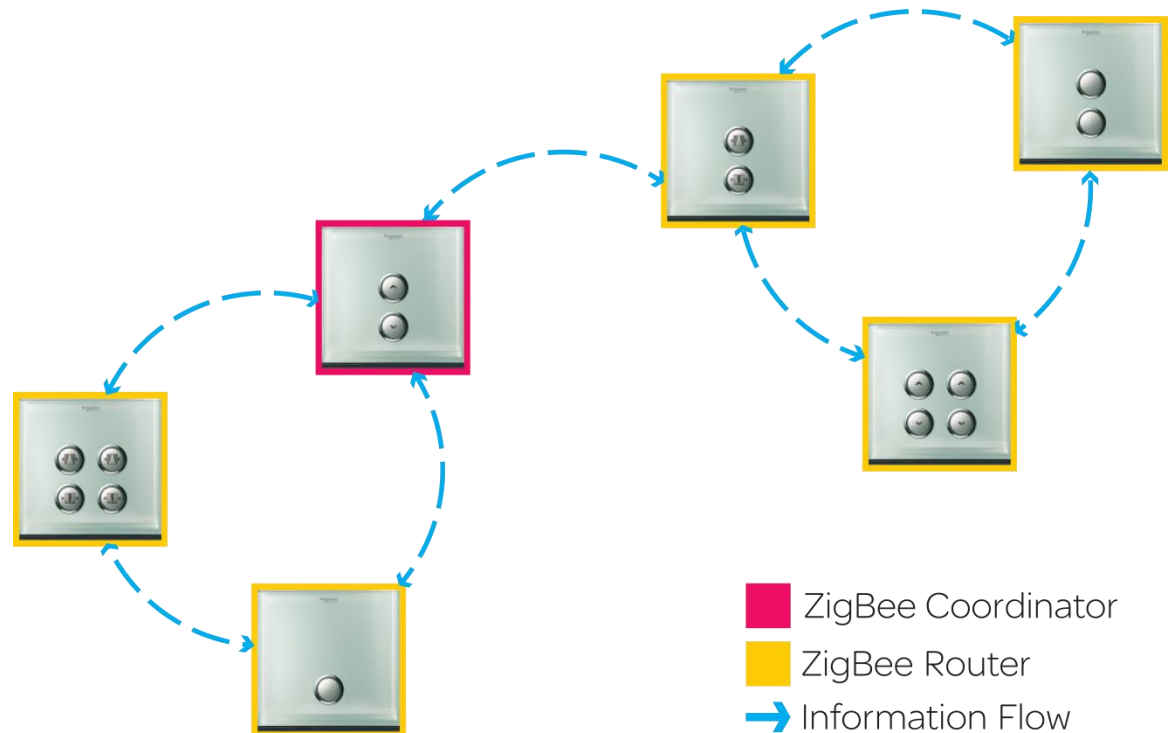

TruRetrofit installation

- Unlike other home control systems, you simply remove your original switch and upgrade to an EZinstall3 replacement
- 2-wire retrofit design requires no neutral wires, easy installation, without hassle on rewiring
- Enables the instant automation of older building

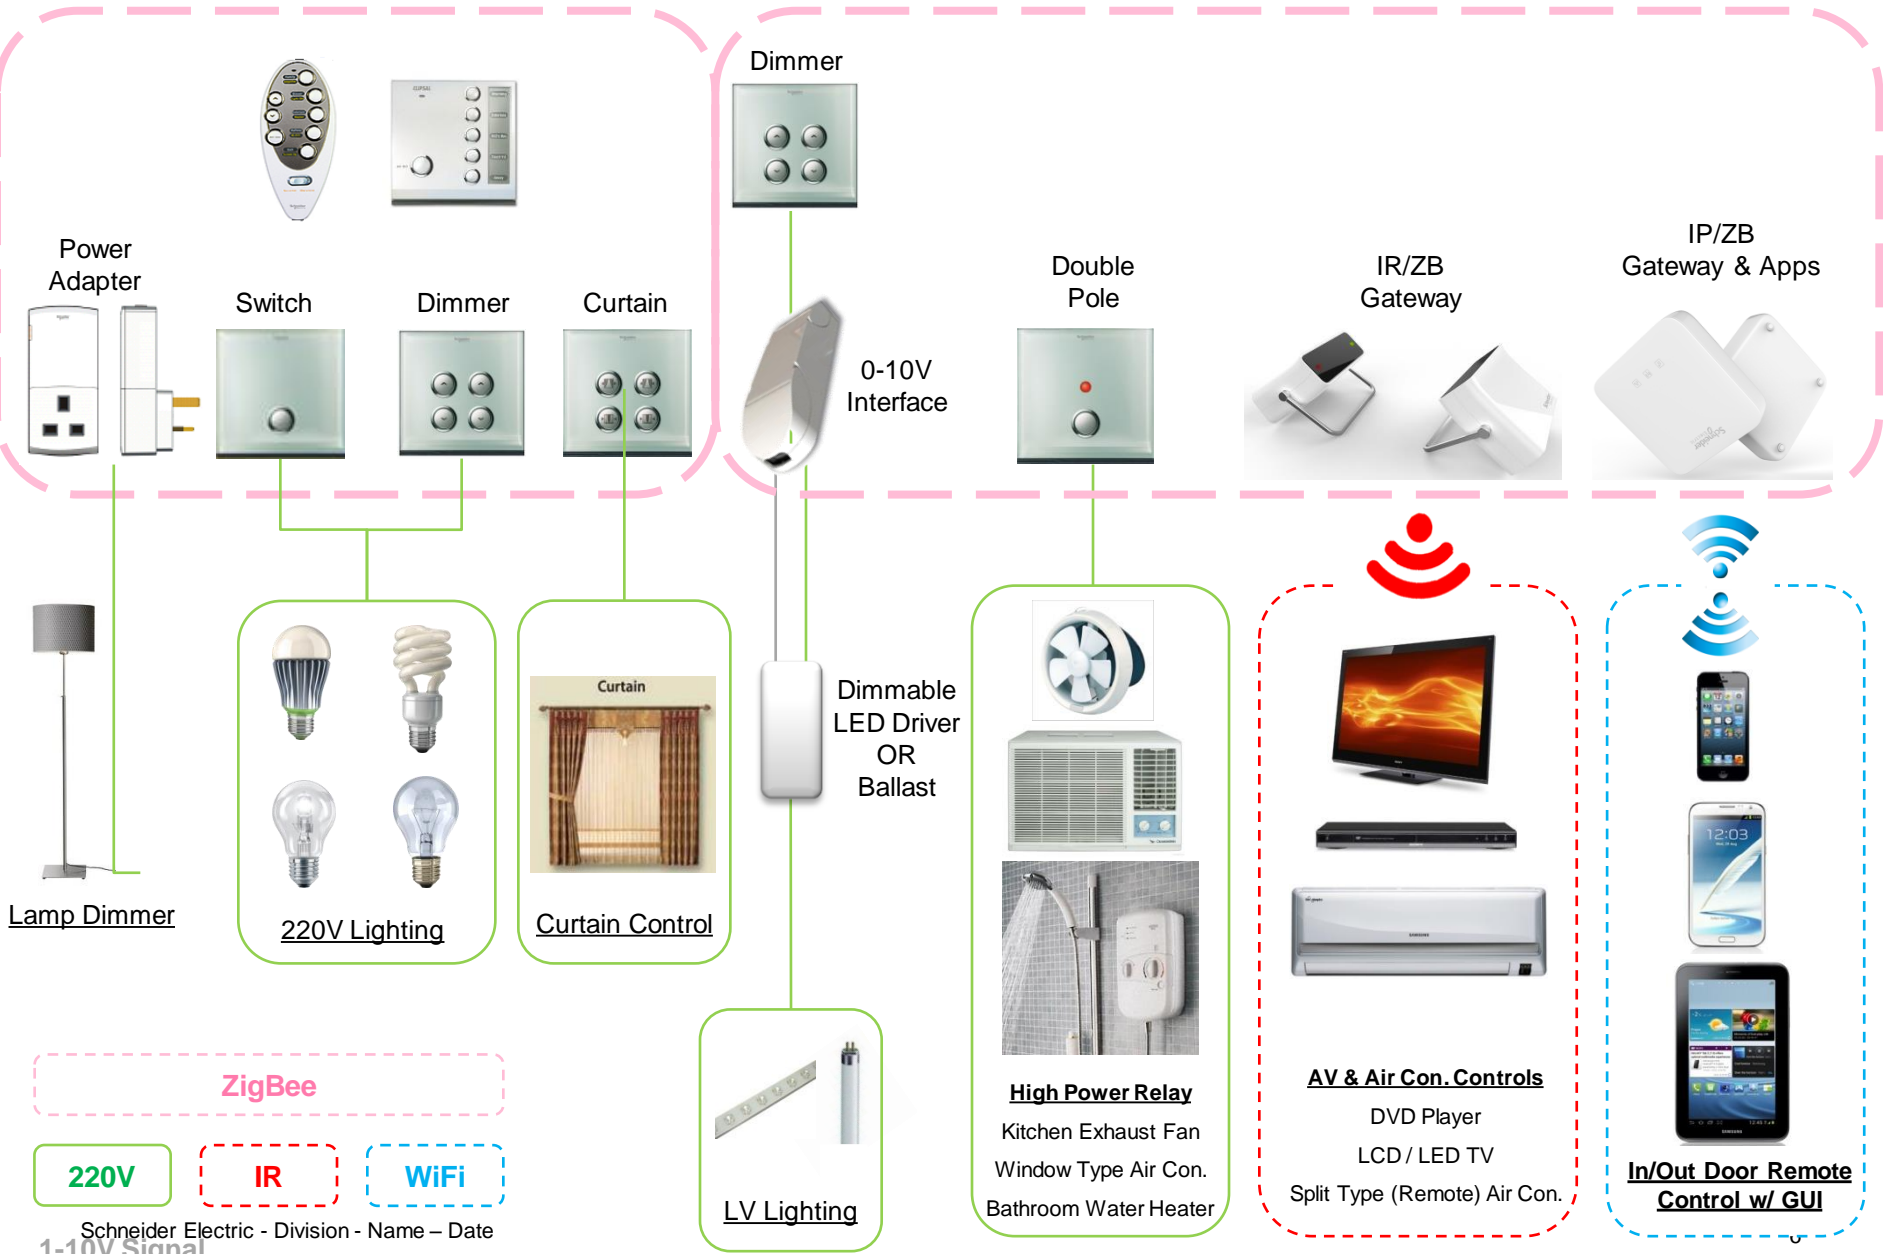

ZigBee wireless

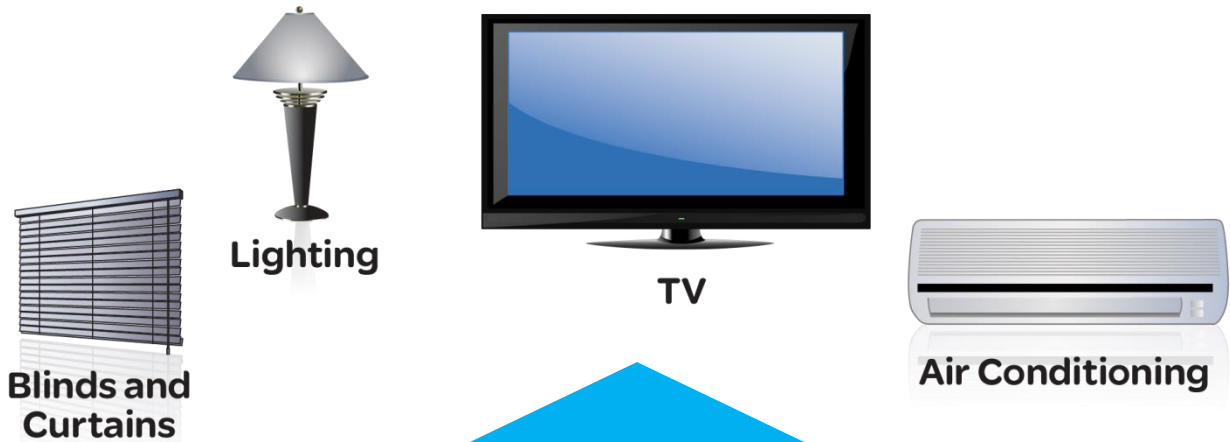

- Uses ZigBee as wireless connection and control
- ZigBee's Peer-to-Peer wireless mesh networking standard with no virtually limitation in range and scalability
- No worry about the type of decorating materials that will affect the quality of remote control
